I'll give you a call this afternoon.
 Back to back meetings this morning.
 I found the [REDACTED] second event validation results sent Tuesday, did you also send the summary table?
 Thanks.

Carolyn

Good morning. Please find attached the third party laboratory validation reports for PR #20 and PR #22.

On a side note, as you know, EWA has been sampling throughout the project area this week and appear to have selected [REDACTED] as a structure where they are completing continuous air monitoring with the VaporSafe technology (completed yesterday). The property owner asked IWM Consulting to resend an electronic copy of the original sampling event [REDACTED] summary letter to him and we forwarded it to him yesterday morning. We also recently completed the follow-up winter sampling event at [REDACTED]. [REDACTED] Ex. 6 Personal Privacy (PP) The draft table and third party validation report was sent to you earlier this week. Do we have the OK to release the Feb 2019 results to the [REDACTED] property owner at this time? How do we want to handle the corresponding summary letter with respect to potential future work at this property and all other properties where the 2nd winter sampling event indicates that VI is not a complete exposure pathway?

Both Chris and I are in the field today so please call me on my cell phone if you want to discuss anything or have any questions.

Sincerely,

Bradley E. Gentry, LPG
